**For Immediate Release
March 5, 2019**

OCEANSIDE HOSTS WORLD OF WATER CELEBRATION ***Public is invited to water-themed fun and learning event***

Join the City of Oceanside on Saturday, March 23, 2019, from 10:00 a.m. to 1:00 p.m. to experience Oceanside's World of Water. This FREE, fun-filled, water-themed event will take place at the San Luis Rey Water Reclamation Facility, 3950 North River Road in Oceanside.

Celebrate World Water Day by traveling through many activities to learn the ways the City of Oceanside works to provide its customers the world's most precious resource – WATER!

Oceanside's World of Water celebration offers water-themed fun and educational activities for people of all ages. Guests can learn about a new source of water coming to the City, called Pure Water Oceanside, and tour the San Luis Rey Water Reclamation Facility. Activities include planting a drought-tolerant succulent to take home, participating in a hands-on water experiment, creating an arts and crafts project, and learning about water and water reuse and more.

For more information and to sign up to join in on the fun, visit www.PureWaterOceanside.org

Pure Water Oceanside will purify recycled water to create a new, local source of high-quality drinking water for Oceanside that is clean, safe, drought-proof and environmentally sound.

Pure Water Oceanside will produce enough water to provide more than 30 percent of Oceanside's water supply.

About Green Oceanside: Green Oceanside is a campaign dedicated to teaching residents and local businesses how to be better stewards of the Earth by recycling, reducing waste, composting, using water efficiently, and preventing water pollution and litter.
