

WaterSmart Landscape Makeover Workshop to be Held August 1

Plants: Inspiring Choices for Our Region

Encinitas, CA—Olivenhain Municipal Water District, San Dieguito Water District, Santa Fe Irrigation District, City of Encinitas, and San Diego County Water Authority are offering a free WaterSmart landscape makeover workshop to assist residents in selecting climate-appropriate plants for their landscapes. The workshop will be held on Tuesday, August 1, from 5:30 p.m. to 8:30 p.m. at the Encinitas Community and Senior Center, located at 1140 Oakcrest Park Drive in Encinitas.

This complimentary workshop will illustrate how a low-water-use landscape can be an upgrade, not a compromise to a garden's aesthetic appeal. A landscape expert will teach participants about plants and why some are more water-efficient than others. In addition, participants will learn about WaterSmart plant palettes and how to research and choose plants that fit individual design themes.

Registration for the workshop is required at www.olivenhain.com/events.

#

Olivenhain Municipal Water District is a public agency providing water, wastewater services, recycled water, hydroelectricity, and operation of Elfin Forest Recreational Reserve. Organized in 1959, OMWD currently serves approximately 87,000 customers over 48 square miles in northern San Diego County.
